## **Opal S-1 PROJECT STUDIO MONITORS**

Australian Monitor is pleased to announce the arrival of the OPAL S-1 Studio Monitors. Created especially for Project and Studio applications, the Opal S-1 has been carefully devised to deliver a large and accurate sound from a small compact package.

Drawing from experience gained through the supply of speakers and amplifiers to many prestigious studios including Sony Music Mastering, EMI Studios 301 and the Record Plant USA, Australian Monitor has developed the ultimate monitor for the price conscious.

Australian Monitor

Ideally suited to project and home studio applications this accurate yet non-fatiguing speaker system has been crafted for the discerning producer who requires the extraordinary flexibility and freedom now offered by cost effective MIDI based digital studio equipment.

For optimum monitoring results we recommend the Australian Monitor **Opal Series** amplifiers with it's superior head room and reknowned reliability it's the "PERFECT MATCH"
